I am an Android Developer with about 3 years of experience in the software industry. During this time, I have spent most of my time developing projects using Kotlin and Java languages.

I am success and result oriented, I care about continuous learning and self-improvement. I like to develop projects and come up with innovative ideas. I try to stay up to date and follow innovations in mobile software.

SKILL

Mobile Development: Kotlin, Java, MVVM, LiveData, Data Binding, Room Database
Back-End: Kotlin, Java, JavaScript, Node.js, Maven, Ktor
GUI Development: JavaFX, Swing
Front-End: CSS, HTML, Bootstrap
Database: MySQL, MsSQL, SQLite, IndexedDB
VCS: Git, GitHub
Tools: Socket.io, HTTP, XML, JSON, Jira

WORK EXPERIENCE

Smart Sistem Elektronik   09/2022 – 07/2023
Android Developer

I specialized in **Java**, **MVVM**, **JavaScript**, **Node.js, MsSQL**, **MySQL**, **XML**, **JSON**, **HTTP**, **Maven** and **IndexedDB** technologies in response to in-house software needs.

- I developed mobile applications with **Java**.
- I supported web projects with **JavaScript**.
- I added and developed features to "**Smart Home**", "**Makel**" and "**Honeywell**" applications.
- I integrated features for remote management of lighting, air conditioning and doors with **KNX** system.

Smart Sistem Elektronik   06/2022 – 08/2022
Software Intern

I prepared a **Static Code** Analysis report for the **Honeywell** Smart Home application and integrated a **voice command** feature into the mobile version.

Ecodation Teknoloji Yazılım   03/2022 – 04/2022
Software Intern

In two internships, I developed myself in **Back-End** software using **Java**, **MySQL** and **Node.js.**

NETAŞ   11/2021 – 12/2021
Software Intern

I used **Java**, **JavaFX**, **Swing** and **MySQL** to develop a desktop application with the theme "**Warranty Services".**

LANGUAGE

- **English,** B2

EDUCATION

İstanbul Aydın University,
Computer Programming
2020-2022

CERTIFICATE

Java Full Stack Developer
Ecodation

Java Standart Edition
Ecodation
